### "Charm and sophistication" in the Winelands

The **Winelands** is another gourmet establishment richer with the opening of the **Bodega**, on Dornier Estate.

Situated a ten-minute drive from **Stellenbosch**, the restaurant aims to combine "old world charm and antiquity with New World sophistication". With a daily varying menu, chef **Tullishe Le Roux** will place her focus on locally produced ingredients, carefully paired with wines from the **Dornier estate**.

As Raphael Dornier explains, "The Bodega philosophy is the same as in the winery: For great end products, you need first class ingredients, creativity and a drive for perfectionism."

The menu includes a selection of *free-range meats*, *home-made pastas*, *Alsatian style Flammekueche*, and a tasting menu designed specifically around Dornier wines.

#### **Menu descriptions**

- Simply list ingredients and the manner of preparation
- Stick to French for those in the know
- It doesn't matter as long as the waiters are well-informed
